Plant and Soil **149**: 301–304, 1993.

Contents of Volume 149 1993

PLANT AND SOIL

Vol. 149, No. 1 February (I) 1993

Research articles

Use of the root contact concept, an empirical leaf conductance model and pressure-volume curves in simulating crop water relations 1
C.R Jensen, H. Svendsen, M.N. Andersen, R. Lösch

Management of tropical soils as sinks or sources of atmospheric carbon 27
A.E. Lugo, S. Brown

Denitrifying ability of thirteen *Rhizobium meliloti* strains 43
J.I. Garcia-Plazaola, J.M. Becerril, C. Arrese-Igor, A. Hernandez, C. Gonzalez-Murua, P.M. Aparicio-Tejo

Effect of burning on selected soil parameters in a grass fallow shifting cultivation system in Bhutan 51
W. Roder, O. Calvert, Y. Dorji

Sources of N uptake by wheat (*Triticum aestivum* L.) and N transformations in soil treated with a nitrification inhibitor (nitrapyrin) 59
D.M. Crawford, P.M. Chalk

Effects of N and P rates and proportional timing of N application on rainfed wheat in Zambia 73
S.P. Mooleki, R.K. Foster

Factors affecting aluminium sorption by calcium pectate 87
F.P.C. Blamey, C.J. Asher, G.L. Kerven, D.G. Edwards

Effects of high temperature on nodulation and nitrogen fixation by *Phaseolus vulgaris* L. 95
M. Hungria, A.A. Franco

New sources of high-temperature tolerant rhizobia for *Phaseolus vulgaris* L. 103
M. Hungria, A.A. Franco, J.I. Sprent

Vegetation effects on phosphorus fractions in set-aside soils 111
J. Magid

Effects of aluminium on growth and cation uptake in seedlings of *Eucalyptus mannifera* and *Pinus radiata* 121
J. Huang, E.P. Bachelard

Root elongation of seedling peas through layered soil of different penetration resistances 129
A.G. Bengough, I.M. Young

Short communications

Effects of organic sulfur compounds on extraction and determination of inorganic sulfate 141
C. Alewell

Soil saccharide extraction and detection 145
D.A. Martens, W.T. Frankenberger, Jr.

PLANT AND SOIL

Vol. 149, No. 2 February (II) 1993

Research articles

Field evaluation of laboratory techniques for predicting the ability of roots to penetrate strong soil and of the influence of roots on water sorptivity 149
S. A. Materechera, A. M. Alston, J. M. Kirby, A. R. Dexter

Selection of *Bradyrhizobium* strains and provenances of *Acacia mangium* and *Faidherbia albida*: Relationship with their tolerance to acidity and aluminium 159
D. Lesueur, H. G. Diem, M. Dianda, C. Le Roux

Amino acid content in xylem sap of regrowing alfalfa (*Medicago sativa* L.): Relations with N uptake, N_2 fixation and N remobilization 167
T. H. Kim, J. Bigot, A. Ourry, J. Boucaud

Leaf expansion, photosynthesis, and water relations of sunflower plants grown on compacted soil 175
A. Andrade, D. W. Wolfe, E. Fereres

Towards the biological control of fungal and bacterial diseases of tomato using antagonistic *Streptomyces* spp. 185
M. S. El-Abyad, M. A. El-Sayed, A. R. El-Shanshoury, S. M. El-Sabbagh

Vesicular-arbuscular mycorrhizal effectiveness in an acid soil amended with fresh organic matter 197
M. Soedarjo, M. Habte

Near isogenic lines of soybeans as tools to identify nodulation specific-mutants of *Bradyrhizobium elkanii* 205
T. E. Devine, J. J. O'Neill, L. D. Kuykendall

Competition between *Tuber melanosporum* and other ectomycorrhizal fungi under two irrigation regimes. I. Competition with *Tuber brumale* 211
M. Mamoun, J. M. Olivier

Competition between *Tuber melanosporum* and other ectomycorrhizal fungi under two irrigation regimes. II. Comparison of soils artificially infested with *T. melanosporum* and *T. brumale* 219
M. Mamoun, J. M. Olivier

Ethylene production in rice bronzing leaves induced by ferrous iron 227
X. X. Peng, M. Yamauchi

A new approach to quantify the utilization of non-exchangeable soil potassium by plants 235
D. Meyer, A. Jungk

Determination of root distribution of wheat by auger sampling 245
K. Kumar, S. S. Prihar, P. R. Gajri

Evaluating the contribution of magnesium deficiency in the aluminium toxicity syndrome in twelve sorghum genotypes 255
K. Tan, W. G. Keltjens, G. R. Findenegg

Microtensiometer technique for in situ measurement of soil matric potential and root water extraction from a sandy soil 263
D. Vetterlein, H. Marschner, R. Horn

Use of a microtensiometer technique to study hydraulic lift in a sandy soil planted with pearl millet (*Pennisetum americanum* [L.] Leeke) 275
D. Vetterlein, H. Marschner

Stomatal numbers of soybean and response to water stress 283
B. R. Butterly, C. S. Tan, R. I. Buzzell, J. D. Gaynor, D. C. MacTavish

Short communications

Influence of root-induced pH on the solubility of soil aluminium in the rhizosphere 289
T. S. Gahoonia

The effect of acetylene on N transformations in an acid oak-beech soil 292
W. de Boer, P. J. A. Klein Gunnewiek, R. A. Kester, A. Tietema, H. J. Laanbroek
